

Rhegmatogenous Retinal Detachment

1

Annual number of rhegmatogenous retinal detachment surgery

Index definition Annual number of rhegmatogenous retinal detachment surgeries

Description The number of rhegmatogenous retinal detachment surgeries in a year.

Calculation **Numerator** Number of rhegmatogenous retinal detachment surgeries for the year

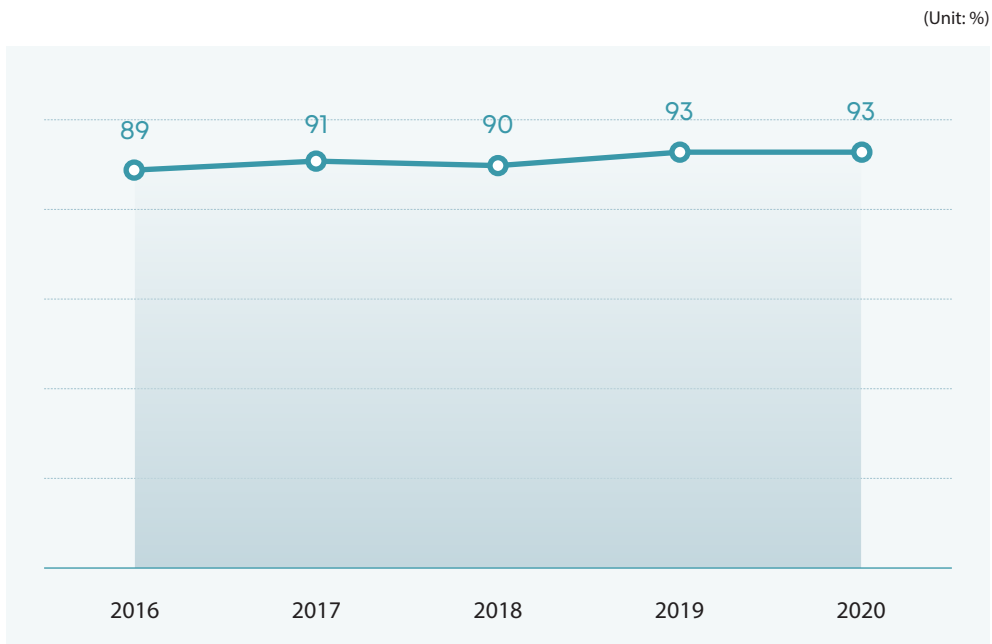

Exclusion **Numerator** Exudative retinal detachment and tractional retinal detachment

2

Proportion of retinal re-attachment without additional retinal surgery within 6 months

Index definition Proportion of retinal re-attachment without additional retinal surgery within 6 months after the operation

Description The proportion of retinal re-attachment without additional retinal surgery within 6 months after the operation.

Calculation

Numerator Retinal re-attachment (includes operations to remove silicone oil due to retinal re-attachment)

Denominator Number of rhegmatogenous retinal detachment surgeries

Exclusion

Numerator Exudative retinal detachment and tractional retinal detachment

Denominator Eyes previously operated for retinal detachment
